

ENGAGE FAMILIES IN STUDENT SUCCESS WITH THE Write It Right Journal HOME

Write It Right Journal Character @ Work Home Edition

Write It Right Journal- Supplement for Parents

Write It Right Journal Home Edition ~

Character @ Work helps strengthen the school-home connection and increases family involvement, while refining critical writing and thinking skills and developing positive attitude, social responsibility and work ethic.

The Write It Right Journal Home Edition ~

Character @ Work provides family members with a resource to help students improve their writing skills and focus on important character qualities that are critical to workplace success.

Through the engagement of parent support and help, the process is effective and meaningful. Through a simple format families and students engage in a meaningful interaction that includes thought stimulating questions and situational problem solving.

It is designed to help parent help their students to think about how their decision today might affect their work opportunities tomorrow. This Journal give students and their families real work information on preparing for a career in the ever-changing market. As a bonus it includes a "Character Quality" Matrix that help a student and their family realize the value of his or her character and how to leverage it for workplace readiness. Several "How to's" culminate each workbook such as: How to write a resume, cover letter and interview. Its simple design helps parents help their children prepare for the ultimate test – life!

Each student journal comes with a family guide.

The Parent Directed Activities for Write It Right Journal – Character @ Work provides additional material that corresponds with the exercises in each chapter of the Write It Right Journal ~ Character @ Work workbook. The Family Component provides:

- Open-ended questions designed to strengthen critical thinking skills.
- Thought provoking quotes that enhance understanding of character topics.
- Information that encourages group discussions, where students can explore the implication of another person's ideas or opinions.
- Opportunities for students to develop critical communication skills as they share ideas and personal experiences.
- Interesting facts, definitions, and explanations that augment student's vocabulary and understanding.
